## My Hood Lyrics.

The streets love jeezy and I love 'em back If I still had the work I'll front you a sack It's all gravy still reaching wit my words And make 'em feel good on the first and the third Take you back when I was sixteen wits a bankroll Posted on a corner like a light pole They used to call us track stars Before they even stopped we ran to dem cars And everybody on the block got the same agenda Hustle from January til the end of December Wasn't smokin purple then it was more like bobby brown On that hen straight dog got a nigga drinking brown (7/11 nigga you know) You know 10 to 4 shake 'em up talk shit get my drink and let 'em go Even when I'm on the road the gangstas stay in touch Why you think they love me so much (ha ha!)

I'm talking bout summertime cookouts and wintertime flights It ain't nothing we hearing shots all night Ford Taurus pulls up everybody run White boys jump out pointing wit they guns (5-0, 5-0) Ford Taurus leave everybody came back Hope dem boyz didn't find my sack Real recognize real I suppose I guess that's why the gangstas be at all my shows Got the deal nothing changed but my clothes Still catch me in the jects f\*ckin wit dem hoes (projects!) Like coo-coo cal Lord I wish mad Lou could see me now Wish gold mouth was there wish mailman was free A lot of niggaz crossing over dog no not me Closest I been in the commercial's when I watch TV And everybody know I rep these streets faithfully.

Ford Taurus pull up everybody run White boys jump out pointing wit they guns Ford Taurus leave everybody came back Hope dem boyz didn't find my sack.

## Jeezy - All There Feat. Bankroll Fresh.

Jeezy and Bankroll Fresh trade bars on "All There."

Jeezy announced his new album, *Trap or Die 3*, at the beginning of September, following it up the very next day with the album's first single, "Let Em Know." He's been relatively lowkey since that announcement and song release though, we almost forgot about him, but he's making a big impact today with a new collaboration that features recently-deceased ATL native Bankroll Fresh (RIP). It's about time too, seeing as the album drops in less than a month.

This is definitely a stand-out record, Jeezy not only has Bankroll on the hook but the two trade bars back and forth-- always dope to hear. It features a tumultuous piano-heavy beat with a sense of urgency that works well with their trap exploits. The song dropped in visual-form first, so take a look.

Cop *Trap or Die 3* on October 28th.
